Allowable Subject Matter

1. Claims 1-5 and 7-44, renumbered 1-43, are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a communication station for transmitting first data and second data, comprising: an encoder for coding the first and second data; a multiplexer for multiplexing the coded first and second data; a transmitter for transmitting a signal including the multiplexed first and second data to another station, the first and second data being transmitted at a first and second transmission power level; and a transmission power controller for receiving transmission power control information from the other station and for controlling one of the first and second transmission power level independent of each other, wherein, the control information is generated to reduce a difference between a first difference between a required received quality and an actual received quality of the first data and a second difference between a required quality and an actual received quality of the second data, as recited in independent claims 1, 3, 5, 14, 15, 18 and 28.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
